A fourth band was used to indicate the degree of precision

I would go to the emergency room and have someone take care of this itching and whatever else the problem is.

Old, and 8 years on the program (where did the time go?), I realize I don’t want to be obligated

The active alkaloids, pseudoephedrine and ephedrine, are chemically extracted from the plant material and processed for pharmaceutical purposes

Caseworkers make about half the mistakes in determining applicants' eligibility and benefit levels
